

MADHUMITHA V

B.TECH COMPUTER SCIENCE AND BUSINESS SYSTEMS GRADUATE

Hosur, Tamil Nadu, India | +91 7604942266 | vmadhuyadav927@gmail.com

LinkedIn: www.linkedin.com/in/madhu-mitha-v-548a32293

SUMMARY

B.Tech graduate in Computer Science and Business Systems with hands-on experience in Python, Java, SQL, Power BI, and Machine Learning. Experienced in software development, data analysis, dashboard development, and machine learning projects. Strong foundation in problem-solving, debugging, testing, and data visualization. Presented research on multimodal deepfake detection at the National Institute of Technology Puducherry and currently seeking entry-level opportunities in Software Development and Data & AI.

SKILLS

Programming Languages: Python, Java

Database: SQL, MySQL

Data & Visualization: Power BI, Data Analysis, Data Visualization

Machine Learning: Machine Learning, Deep Learning

Web Development: HTML, CSS, JavaScript

Development Tools: JavaFX, Eclipse, Git, GitHub

Core Skills: Object-Oriented Programming, Debugging, Software Testing, Problem Solving

PROJECTS

Multimodal Deepfake Detection

- Technologies: Python, Machine Learning, EfficientNet-B2, Bi-LSTM, Audio-CRNN
- Developed a multimodal deepfake detection system using visual, temporal, and audio features.
- Implemented EfficientNet-B2, Bi-LSTM, and Audio-CRNN for multimodal learning.
- Applied contrastive triplet loss to improve model generalization.
- Evaluated the system using FaceForensics++ and FakeAVCeleb datasets.

History of Sales Management System

- Technologies: Java, JavaFX, MySQL, SQL, Eclipse
- Developed a Java-based desktop application to manage and analyze historical sales data.
- Implemented modules for data retrieval, validation, and reporting.
- Created test scenarios and performed functional testing to validate application modules.
- Identified and resolved bugs during the development phase.

Sales Dashboard using Power BI

- Technologies: Power BI, Data Analysis, Data Visualization
- Created an interactive Power BI dashboard to visualize sales trends, revenue growth, and customer insights.
- Developed visual reports to improve data visibility and support business analysis.

WORK EXPERIENCE

Web Development Intern — IXLY Technologies

July 2024 – August 2024 | Coimbatore, Tamil Nadu

- Developed web-based features using HTML, CSS, JavaScript, and Python-based logic.
- Assisted with debugging, testing, and resolving application issues.
- Supported requirement analysis, implementation, and documentation.

RESEARCH & CONFERENCE PRESENTATION

DeepFakeX: A Unified Multimodal Framework for DeepFake Detection Using Spatiotemporal and Contrastive Supervision
IC3DCM 2026 | National Institute of Technology Puducherry | May 2026

- Presented research on multimodal deepfake detection using spatiotemporal and contrastive learning.
- Manuscript currently in production with Springer Nature.

EDUCATION

Rajalakshmi Institute of Technology, Chennai

September 2022 – May 2026

B.Tech – Computer Science and Business Systems

CERTIFICATIONS & VIRTUAL EXPERIENCES

- Power BI Data Visualization Fundamentals — Workshop
- AWS Solutions Architecture Virtual Experience — Forage
- Accenture Software Engineering Virtual Experience — Forage
- Frontend & Web Development Training — IXLY Technologies
